

ZETA's first net zero energy building achieved a LEED Platinum rating, a 206 Green Point Rating, and EPA's highest indoor air rating Indoor airPLUS.

High performance schools.

High performing students.

educational & public facilities

www.zetacommunities.com

ZETA's line of high performance educational and public facilities enable high performing students. The designs incorporate energy efficiency technologies, ample natural lighting, proper ventilation, high indoor air quality, and cutting edge learning technologies. The products exceed CHPS and Title 24 standards.

Additionally, these structures are energy efficient for lower operating costs, high quality for lower maintenance costs, and durable for long-term facilities cost savings. All of this value, delivered at a competitive price.

ZETA

zero energy communities
